

MD. SAKIB HOSEN

Competitive Programmer | Backend Developer

Dhaka, Bangladesh

+8801971311958 | md.sakib.hos3n@gmail.com

github.com/chatok-jnr | iamchatokjunior.netlify.app | linkedin.com/in/chatok-junior/

EDUCATION

University of Information Technology & Sciences (UITS)
B.Sc. in Computer Science and Engineering (CSE)
CGPA: 3.60 / 4 (Up to 6th Semester)
Expected Graduation: June 2026
Focus: **Data Structures, Algorithms, and Backend Development**

ACHIEVEMENTS & AWARDS

- Codeforces:** chatok.jr — Max Rating **Pupil (1344)**; solved **400+ problems**.
- CodeChef:** chatok_junior — Max Rating **3-Star (1724)**;
- Solved over **1000+ problems** across multiple online judges.
- Participated in **ICPC Dhaka Regional 2024** as part of Team **UITS_ACES**.
- Competed in **5 Inter-University Programming Contests (IUPC: IUT, KUET, UIU, AUST, UU)**.
- Champion – UITS Hackify Fest 2025**
Secured **1st place** representing **Team UITS_ACES** among top university programmers.
- Champion – UITS Winter Fest 2024**
Achieved **1st place** in a solo contest, demonstrating strong algorithmic and independent problem-solving ability.

PROJECTS

Taza Bazar | Backend (Node.js, Express, MongoDB)

- Architected secure **RESTful APIs** for user authentication, product management, and admin operations
- Implemented **JWT authentication** with password hashing (**bcrypt**) and **CORS** policies
- Integrated **environment configuration** and **request logging** for streamlined development

Live Link: TazaBazar

Sudoku Solver (JavaScript, HTML, CSS)

Developed a **responsive browser-based Sudoku solver** using a recursive backtracking algorithm with constraint checking to validate and solve puzzles entirely on the client side.

Live Link: Solve Sudoku

SKILLS

Languages:

C++

JavaScript

Frameworks:

Node.js

Express

Database:

MongoDB

Concepts:

OOP

Algorithms

Problem Solving

EXTRA CURRICULAR

- Mentorship:** Regularly mentor junior students in **Competitive Programming**, organizing problem-solving sessions and guiding them through algorithmic concepts to improve their logical reasoning and contest performance.
